FOLDER MR&A 7, Redwing Vol. II

408815

Honorable Herbert B. Loper
Chairman, Military Liaison Committee
to the Atomic Energy Commission

Dear General Loper:

By memorandum dated January 27, 1956, you concurred in our proposal for the starting date of the operational phase of REDWING.

Admiral Hanlon has recommended that the operational period be concluded about twenty days subsequent to the last detonation of the series. The Atomic Energy Commission concurs in this recommendation and requests the concurrence of the Department of Defense.

Admiral Hanlon's designation as the Senior Atomic Energy Commission Representative at the Pacific Proving Ground and his authority to act for the Commission will terminate with the end of the operational phase.

Sincerely yours,

General Manager
