BIO-MED Dr Conard  
FOLDER 6/1964 thru 12/1965

Dear Mr. Bonnet:

Now that our survey plans are pretty well formulated, it is requested that you prepare the necessary orders for our group for MATS travel as follows:

- ① D. Clareus arrives Honolulu 21 February, request MATS departure to Kwajalein on 24 February.
- R. A. Conard arrives Honolulu 21 February, request MATS departure to Kwajalein on 28 February.
- J. Robbins arrives Honolulu 25 February, request MATS departure to Kwajalein on 28 February.

② In addition, we would like to have orders written for two other members of the team who will not require MATS transportation from you, since they are going under the auspices of the University of Hawaii (Dr. Hyatt). I would like to have orders for them, however, since they will join our survey at Kwajalein. These two are Dr. Leo M. Meyer and Mr. W. A. Scott. It is requested that Mr. Clareus and I be authorized 50 lbs. excess luggage.

③ Our immunization requirements are current. I am obtaining the necessary clearances for the group for Kwajalein through Mr. Beavers at Redstone Arsenal. Enclosed is a copy of my letter to him. I am enclosing a copy of the orders that you wrote for Dr. Rall and I this past September in case you might want to refer to it. I am also enclosing a copy of the letter to Mr. Granich at Global in regard to assistance we have requested at Kwajalein.

④ The Naval Materiel Center at Garden City, L.I., New York has no doubt contacted you regarding a priority I for shipment of our survey equipment. This equipment amounts to only about eight boxes (approximately 100 cu.). We hope to ship this on 24 January, and would appreciate it if you will track it down for us to be sure it gets to Kwajalein by 26 February at the latest.

As you know, we plan on getting \_\_\_\_\_ back to Honolulu for her examinations at Tripler Hospital. Would you please send Mr. A. Dale, Trust Territory Representative, Trust Territory of the Pacific Islands, District of Kwajalein, APO San Francisco, California, 96555, the necessary appropriation number to pay for her MATS travel. I do not know whether you will wish to issue orders for her or whether the Trust Territory will do this. Since we would like to have \_\_\_\_\_ leave Kwajalein on the MATS flight of 22 February, there is not too much time to accomplish this item. I am enclosing a copy of a letter to Major Ronald Moore at Tripler Hospital in order to complete arrangements with him for the examinations there. You may wish to contact the Commanding Officer at Tripler to verify these arrangements.

Thank you very much for your help in arranging the survey.

Sincerely,

*Robert A. Conard*  
Robert A. Conard, M.D.
