BEST COPY AVAILABLE

Dear Sir:

The purpose of this letter is to inform your office that we have made three copies (Series B) of a letter from Admiral Arthur W. Radford to Dr. John C. Bugher, Director, Division of Biology and Medicine, dated 26 June 1953 regarding fall-out operations and classified "Secret-Security Information." We have taken this liberty in order that the Commissioners, the Health and Safety Division of the New York Operations Office, and our Biophysics Branch might be informed of the contents and have copies available for more convenient reference in the future.

Ordinarily we would ask your permission prior to making additional copies of your letter; however, in view of the imminent meeting date and the desirability of having the information in the hands of participants as soon as possible, we felt that you would understand this expediency.

Sincerely yours,

H. C. Brown, Jr.
Executive Officer
Division of Biology and Medicine
