March 9, 1967

Mr. Leonard Mason
 Professor of Anthropology
 University of Hawaii
 2550 Campus Road
 Honolulu, Hawaii 96822

Dear Professor Mason:

The material you sent on February 24, 1967, covering the resettlement of the Marshallese formerly of Bikini, is very much appreciated.

At the request of Mr. Norwood, High Commissioner of the Trust Territory, this office is taking an active part in investigating the possibility of returning Bikini to the former natives.

Although we understood there were more problems involved in relocating the people of Kili than the radiation levels at Bikini, the identity of these problems was fairly vague until we examined your history of the lives of these people through the years since they were removed from Bikini.

If the Atoll is cleared by the Atomic Energy Commission as a result of the next survey, we will be very interested in keeping abreast of events leading to the ultimate use of Bikini and the solutions to the problems of the residents of Kili. We believe all organizations involved share Mr. Norwood's concern for the welfare of the people of the Trust Territory and will cooperate in the effort to implement the course of action chosen.

We will be interested in reading any material you may develop related to this subject. We are sending a copy of your most informative letter to Dr. Held, University of Washington, for his information. Mr. Rasmussen of this office will keep you advised of the progress of the preparations for the Bikini Survey scheduled for mid-April 1967.

Very truly yours,
