I have been advised by Dr. Conard that his recent survey of the exposed Marshallese has resulted in the fact that 5 people will be brought to the United States for further medical treatment and possibly thyroid surgery in June 1973. Two people will be from Utirik and three from Rongelap plus one interpreter. I estimate that logistic support for the six people will be at \$1,000 per person, making a total of \$6,000. The tentative schedule is for the people to meet at Kwajalein and depart on May 30 for Honolulu, depart Honolulu on June 1 for New York, leave New York about June 12 and return to their respective islands by June 16. Your help in obtaining an additional 6K for Conard's program for this purpose is requested.
