OFFICE OF THE CHAIRMAN

18 March 1955

Dear Mr. President:

With reference to the letter which you received from Dean Rusk of the Rockefeller Foundation offering to finance the National Academy of Sciences in an independent study of the genetic and other effects of fall-out from nuclear detonations, this is simply to complete the staff work and to let you know that I have been in communication with Mr. Rusk and that the matter is under way.

Respectfully,

Lewis L. Strauss

Lewis L. Strauss

The President
The White House
