REMARKS

Bill
 This is a copy of Col. McWhee's memo on the CBS visit to Eremitah and Ujelang. It's the only "trip report" I've seen so far. Hal Halbitzer and I briefed Mrs. Chasen yesterday on the trip. All went well. *Best wishes*

segment scheduled to air in November. In addition, several thousand feet of DNA film showing the military cleanup activities were copied by CBS for use in the show. Morley Safer commented that this film was of high quality and would be used to demonstrate the scope of the engineering effort. The following was filmed by CBS:

and 30 years ago we ~~decontaminated~~ ~~many~~ ~~necessitated~~ ~~it~~ and though some might now object it is a historical fact. A massive effort successfully removed hundreds of tons of debris and soil so the natives can return home next year. However, this island of Runit will remain contaminated for thousands of years.

I. After Morley Safer left, the crew filmed the following:

~~PRESENTLY AT THE OFFICE OF THE PEOPLE REPRESENTATIVE.~~

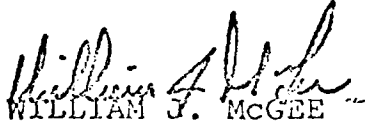

(5) The presentation of the People of Enewetak's resolution at the end of the conference to DoI that they decided they want to return to Enjebi.

K. The CBS producer requested a meeting with the Pacific Ocean Division Engineer in Honolulu to discuss the technical data of the Cactus Crater. This meeting took place on Saturday, 22 Sep, at Ft Shafter and lasted only 15 minutes. No film was taken at the meeting.

L. Morley Safer stated he would probably visit Washington in the next few weeks to film an interview with VADM Monroe and Ted Mitchell.

Subject: CBS 60 Minutes Visit to Enewetak

All indications are that the segment on 60 Minutes will be generally favorable and present a complete overview of the project.
