Dear Mr. Campbell:

On May 11, 1964 we submitted to you for approval a revision of our Pacific Proving Grounds Travel and Subsistence Policy. A meeting was held at AEC Headquarters on May 27, 1964 with representatives of the AEC, EIA, and the pertinent AEC contractors to discuss the various contractor's policies for the Pacific Proving Grounds. As a result of this meeting we believe certain revisions to our May 11, 1964 policy are warranted.

The attached policy varies in three respects from the policy submitted on May 11, 1964:

1. "Differential Allowance" is changed to "Isolation Allowance" and all references thereto have been changed accordingly.
2. Paragraph A 2, Isolation Allowance, has been revised to delete the reference to "airborne operational aircraft."
3. Paragraph A 3, Flight Allowance, has been added.

As you will note, the Isolation Allowance and the Flight Allowance are two distinct provisions and could, where an individual so qualifies, result in the employee's receiving both. In line with present planning, instances of this type will be very limited.

Your earliest consideration and approval of this revised policy will be greatly appreciated.

Very truly yours,

Henry R. Hoyt
