Dr. Shields Warren, Director
Division of Biology and Medicine
Atomic Energy Commission
Washington 25, D. C.

Dear Dr. Warren:

Dr. LeRoy visited us last week and we were able to make definite plans for the 1951 Test. Dr. LeRoy referred time and again to the experience obtained and to the experimental setup during "Operation Sandstone".

We never received any report on this and I understand none are available in our central office. Would it be possible for me to see these reports so that I can get more background in planning intelligently for the 1951 Test?

Sincerely yours,

Alexander Hollaender
